**ONE DOLLAR**

## **E Pluribus Unum**

El pasado verano en Covarrubias, solía ver a menudo el telediario de la 1 con mis padres, mi madre observaba que siempre aparecían imágenes con billetes, con dinero rulando como se dice habitualmente. Además también apuntó que esto solía pasar hasta 3 ó 4 veces por programa, por espacio de unos 3 segundos cada vez.

Finalmente llegamos a contar cuántas veces ocurría esto cada día, y era una constante casi matemática.

## **Annuit Coeptis**

Last summer in Covarrubias, I used to watch the State sponsored news with my parents, and my mother pointed out how many times they were showing images with money, euro bills rolling. She also remarked that this was happening up to three or four times per program, for about 3 seconds each time.

Finally, we came to count how many times those images were being shown each program, and we realized it was a mathematical constant.
